**DETAILED ACTION**

1. Amendment filed on 8/15/03 has been received.

***Claim Rejections - 35 USC § 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuo et al in view of Walenty et al.

Matsuo et al discloses: commonly controlling the wheels using a mechanical system with a transfer device and a equalizer (see figure 1).

Matsuo et al does not disclose controlling the wheels based on the state of slip of one of the wheels. Walenty et al teaches a parking brake system that controls the brake force based on the slip of the wheels, (see abstract). It would have been obvious to one of ordinary skill in the art at the time the invention was made to control the wheels based on slip as taught by Walenty et al in the system of Matsuo et al in order to provide a optimum braking force no matter the road conditions by the parking brake. Furthermore, Matsuo et al discloses a mechanically common controlled system. Therefore, the wheels must be controlled based on the state of one wheel since it is physically impossible to control the wheels separately. Furthermore, as is well known in ABS when commonly controlling two wheels, the brake force applied is based off the wheel with the greater slip since it is more likely to lock up thus causing vehicle instability.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
